

2008 Oil and Gas Activity Update for Saskatchewan

Jane McLeod¹

The presentation will provide an update of petroleum industry activity levels for the province of Saskatchewan and, in particular, the Williston Basin, and will identify some of the major achievements in 2008.

¹Saskatchewan Ministry of Energy and Resources, Regina, SK

Jane McLeod has been working for the Ministry of Energy and Resources, Engineering Services Branch, for just over 3 years. She has a Bachelor of Applied Science degree in Industrial Systems Engineering from the University of Regina. While in university, Jane took advantage of the Co-op work program and gained experience working for SaskTel, SaskEnergy and Cominco Engineering Services (Richmond, BC). After university, she lived in Ireland for a year before coming back to Canada and working briefly for Schlumberger in Alberta. She then returned to Saskatchewan and began her career with the government.
